

EQUIPMENT FINANCING & LEASING

TriQuest Capital is the source for Equipment Financing and Leasing for any and all types of restaurants. With TriQuest Capital, restaurant owners have an alternative to restrictive bank loans that require additional collateral and flawless credit.

Business owners know all too well of the hassle and time involved when securing traditional bank financing, not to mention the additional collateral requirements.

TriQuest's goal for our customers is to alleviate these problems. We know that your time is valuable and we pride ourselves on working directly with you and your vendors to provide quick and easy equipment financing.

Our job is to help our customers find the financing options that are right for them. Not to sell them on something they don't need.

With financing and leasing through TriQuest Capital, franchise owners can expect:

- No additional collateral required
- Short, one page application
- Decisions within 24 hours
- "No Prepayment Penalty" options

"TriQuest provides awesome customer service to our brand as well as our Owner-Operators. I can call TriQuest with an owner on the phone and all questions will be answered professionally. The team is very helpful and extremely honest in regards to interest rates and payoffs. TriQuest really works hard to provide approvals to all of our owner-operators regardless of their credit. We have never had an owner-operator to be denied services. This company definitely finds alternative ways to assist our owner-operators in opening their stores."

Yukeba White, Dickey's Barbecue Corporate

"I saw an opportunity to build something for myself in life. Everything was in place but I needed more equipment financing. I gave Jay at TriQuest a call and he made it possible to get my business on the path to success. I really appreciate TriQuest for believing in small businesses."

Demetrius Weathersby, Small Business Owner

"TriQuest Capital is quick and unbelievably easy to work with. My lease agreement was accepted and equipment ready for delivery even before I was."

Robert Bradshaw, New Restaurant Owner
